Fifty Hikes in New Mexico

by Harry Evans

The University of New Mexico Press :: Sandia Mountain Hiking Guide From the Jemez and Sangre de Cristo mountains, through contorted volcanic formations and along striated canyons, this guide s got you covered. 

Available at ?Amazon.in: Buy Fifty Hikes in New Mexico Book Online at Low Explorer s Guide 50 Hikes in Northern New Mexico has 7 ratings and 1 review. Patrick said: Pretty good. This guide is one of my favorite books on hiking in New Mexico. It is a comprehensive guide to some of the best hiking trails in the state. It includes detailed descriptions of each hike, including the distance, elevation gain, trail conditions, and the best time of year to hike. The hikes are divided into six regions: the Jemez Mountains, the Sangre de Cristo Mountains, the Taos Mountains, the Sandia Mountains, the Rio Grande Gorge, and the High Plateau. Each region contains several chapters, each chapter describing several hikes. The hikes range in difficulty from easy to strenuous, and there is something for everyone. This guide is an excellent resource for hikers of all levels.
